

Moulded

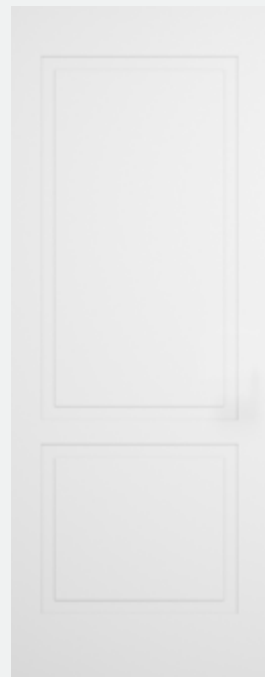

Moulded doors are the UK's most frequently used residential doors making them a great choice for replacement and new build projects. These cost-effective doors come in a wide selection of designs, core constructions, sizes, glazing, and fire-rated options.

We have selected the most popular standard ranges in woodgrain and smooth finishes but can obtain others including glazed, pairs and bi-folds from all major door manufacturers upon request subject to availability.

Most of our branches also offer an in-house glazing service to provide a range of designs for a variety of environments.

Veneer

Get a simple and clean look that will fit effortlessly into any environment with our range of veneer doors. With their natural appearance and smooth finish they have the additional benefit of needing no decoration to the face once hung.

We can provide additional sizes and glazed designs, including custom-made by our manufacturing team to complement these ranges.

Contemporary

Discover our versatile range of doors designed to enhance any space.

The Montreal, Sandringham, and Windsor collections blend traditional mouldings with trendy colour finishes to create standout style for any home.

Our Dekordor® ranges offer a variety of finishes to suit diverse settings. The foil range delivers an economical alternative to veneer, while the 3D option features an embossed polypropylene face for a premium look and feel. Choose from our most popular designs or explore additional options, including customisable groove designs for Dekordor® doorsets.

Classic

Choose from our range of heavyweight timber doors to add a premium finish to any home.

We've selected the most popular designs on the market but if you can't find the style you're after or need a glazed option to match just ask.

These stylish oak veneer designs can be supplied unfinished or pre-finished needing no extra decoration apart from the edges after trimming. We can also provide veneer and white doors in these traditional designs for a more contemporary finish.

Made to Order Glazed Doors

We provide non-fire, 30 and 60-minute fire-rated, and acoustic-rated timber glazed doors manufactured in house on a fast lead time. Once you know the performance you need, select from our wide range of veneers, paint grade, laminate or moulded doors and choose your glazing vision panel from the designs shown. If you have a specific design or bespoke size, we can also accommodate this if the certification allows it.

Speak to a member of our team and we will advise you on the best glazing specification to meet your requirements.
